KEY INSIGHTS:

Audience Insights

1. Young Adults are the dominant audience segment, contributing the highest share of viewership, followed by Mid Adults.
2. Gauteng has the largest subscriber base, significantly outperforming all other regions in terms of audience size and viewing activity.
3. The audience is predominantly male, accounting for the majority of viewers across the platform.
4. The largest race segment contributes approximately 38% of the audience, indicating a concentrated audience profile.

Viewer Behaviour Insights

1. Saturday is the peak viewing day, recording the highest viewing activity across the week.
2. The Afternoon period is the most active viewing time, followed closely by Evening.
3. Nearly 70% of viewing occurs during weekdays, highlighting that audience engagement is stronger during the week than on weekends.
4. Peak viewing activity occurs between 10:00 and 19:00, indicating the best window for high-impact content distribution.

Content Performance Insights

1. SuperSport Live Events is the top-performing channel based on total viewership and engagement.
2. Sports-related content consistently attracts the highest audience interest and viewing time.
3. A small number of channels account for a large share of total viewership, indicating that audience attention is concentrated around a few high-performing channels.
4. Average watch duration varies significantly across channels, suggesting differences in content engagement levels.

Engagement & Retention Insights

1. The platform has a strong Engagement Rate of 93.89%, indicating that most subscribers actively consume content.
2. Despite high engagement, 51.23% of users are one-time viewers, showing an opportunity to improve user retention.
3. Only 7.34% of viewers are classified as loyal users, representing a relatively small but highly valuable audience segment.
4. Average viewing activity is approximately 2.3 sessions per user, suggesting opportunities to increase repeat engagement.

RECOMMENDATIONS:

Content Strategy

1. Increase investment in sports-related programming, particularly content similar to SuperSport Live Events, as it consistently attracts the highest engagement.
2. Use top-performing channels as promotional platforms for lower-performing content to increase discovery and viewership.

Scheduling Strategy

1. Schedule premium content, live broadcasts, and major marketing campaigns during Afternoon and Evening periods, when audience activity is highest.
2. Prioritize important content releases on Fridays and Saturdays, as these periods show the strongest engagement.

Audience Growth Strategy

1. Focus growth initiatives on Young Adults and Mid Adults, as these groups generate the highest levels of viewership.
2. Develop targeted campaigns for underrepresented age groups such as Teens, Seniors, and Children to diversify the audience base.

Regional Strategy

1. Continue strengthening audience engagement in Gauteng, which remains the platform's largest market.
2. Expand marketing and content initiatives in Western Cape and KwaZulu-Natal, as these regions represent strong growth opportunities.
3. Investigate low-performing regions and tailor content or promotional campaigns to improve adoption.

Retention Strategy

1. Implement personalized recommendations to encourage one-time viewers to return and consume more content.
2. Create loyalty programs, exclusive content, or rewards to convert returning viewers into loyal users.
3. Increase engagement among low-usage viewers through curated content suggestions and targeted notifications.
